This is a well broke, muscled up fancy gelding with lots of chrome. He will go anywhere and anyone can ride him. He has sorted, branded, drug them to the fire. He's been in the mountains, creeks, corrals and highways. He had 30 days pro training on the heels and can head out of the box. He's been on a dude string with absolutely no bad habits. He is an all around pretty ranch horse and is even broke to drive.
