Stock Horse: Snaffle Bit: Cutting: Roping:

"Charro" is 15.1 hands, built right and really broke. Used to gather in rough country, sort and brand. He is the only horse we have trusted with our son out on the ranch and in the branding pen. He has been willing and good at everything we have asked of him. Money winner in team branding, goat tying, breakaway and heeling. You will not find a horse like this for sale very often.
