- { Brown Dusk

Stock Horse: Snaffle Bit: Cutting: Roping:

"Dallas is a 16 hand dun gelding that has been used to pony colts, brand calves and doctor outside. I have started heading on him in the team roping pen and used him in a few ranch rodeos. He's solid outside and is nice to rope yearlings on. Dallas will be a nice addition to any working ranch or anyone who wants a solid using horse. He could also make a really nice head horse.
